²Distributions taken prior to annuitization are generally considered to come from the gain in the contract first. If the contract is tax-qualified, generally all withdrawals are treated as distributions of gain. Withdrawals of gain are taxed as ordinary income and, if taken prior to age 59 1/2, may be subject to an additional 10% tax penalty.

³For deposits less than \$100,000, deduct 1% from the first year rate. Bonus interest is an incentive to purchase and is subject to change at any time.

⁴Effective rate is for the term of the initial guarantee period. Assumes no withdrawals are taken during the guarantee period.
